Subject: FW: PH Surface Sediment Schedule through Friday, May 24

---

Davis.

This is the first time I've been copied by the field teams for coordination. Howard may have received other communications, but I haven't.

Hopefully this is a sign they are finally starting to communicate with us more, but they have not been as actively forecasting in advance about telling us when and where they plan to be as Ken's message suggests. There have been occasions (e.g. the spontaneous decision by them to check Fish Tracking signals) that was announced the evening before Saturday morning, leaving us scrambling for find someone to perform oversight for this activity.

Scott

Davis,

This is an example of the dialogue that occurs btwn the field teams regarding scheduling. As you'll note Scott Coffey and others are copied.

I haven't been forwarding these to you under the assumption there was adequate communication and was balancing that against email over-load.

Let me know if you prefer to be copied on all similar emails about field scheduling.

Greg,  
Still 8 am start at SIL tomorrow Saturday, Sunday, and Monday. No change yet. I'll send out another update on Monday.  
Thanks  
Nicky

Greg,

No change in start time – still 8 am at SIL boat ramp. I am on the water tomorrow so we I will talk about start time adjustment decision with the team, and I will send out another update if any change.

We are working straight now through Friday, May 24. We are off Friday through Monday for Memorial Day weekend.

Please call my cell phone if any questions. M +1-503-969-6310

Thanks  
Nicky

Subject: New Meeting Time for Pre-RD Work

Hi Nicky –

Scott said that the meeting time at the Swan Island boat ramp may change from 8am to 6am. Do you know when a decision will be made to change the meeting time? If the time will change, when would it start? Please let me know so I can inform our staff.

Thanks, Greg
